Required attachments:

- ✓ Most Recent Report Card
- ✓ Acceptance Agreement Form
- ✓ One-page typed explanation of why you should be accepted into this program and what you expect to achieve.

Acceptance Agreement Form

The Youth CSI Forensic Science Class is a Workforce Development Initiative. This training program was established to increase equity and skills levels of students so they can compete for high-paying jobs. This Workforce Development Program is supported by the Plant City Police Department, FDLE and FBI as part of its community outreach program. The program is operated by the non-profit organization Improvement League of Plant City Community Development Corporation.

The Primary Trainer is Forensic Laboratory Certified and is certified through the International Association for Identification. This is a task-oriented training program rather than time-oriented, which means that a date for completion of this training program cannot be determined but one should expect a maximum period of 104 weeks.

Students must be of Junior High School (grades 7th thru 10th grade) and will be evaluated for acceptance into CSI Forensic Program. CSI applicants with issues or incidents on juvenile/adult records will not be accepted. The curriculum (STEM) is school district approved. CSI Forensic Program requires extensive reading, lecture sessions, and attention to detail. The program is offered at no cost to the student in large part to the sponsorships and support from various local businesses and law enforcement agencies. The average expense per student is \$750.00 therefore acceptance into the program requires strict attendance and participation.

I _____ acknowledge that the CSI Forensic Program is an excellent opportunity/ privilege not a right. I must adhere to rules, participate fully and complete all assignments. If accepted into the program I will represent the program in a positive manner at all times.
